Day 7

Name: Sohit Bagga
Internship Day: 7
Date: 17th October 2023
Mentors: Tarni Baghel, Arohi Sharma
Company: Innodeed Systems

Today's Tasks

completing previous topics

and Starting with the design of the following App
React App (Material UI) :

1. Design a website for your restaurant using react.
2. Customer should be able to add items available in your restaurant to cart.
3. Take details from customer using form (customer: name, email, number) while checking out.
4. Show order summary with item name and price, subtotal and total amount.
5. Add tax on total order
6. Add tip option (customer can optionally give tip)
7. Order confirmation and invoice.

Challenges Faced

Plan for Tomorrow

Deployment Status

Notes

Comments

Cleared my previous doubts about Async Await, Promises, etc.

Made a rough Design for the React App
